## CAREER SUMMARY

A passionate and results-driven MERN Stack Developer with experience in building scalable, user-focused web applications using React.js, Node.js, Express, and MongoDB. Skilled in developing responsive UIs, RESTful APIs, and real-time features. Adept at Agile development and delivering production-ready solutions. Committed to continuous learning, collaboration, and delivering impactful results aligned with business goals.

## Education

**University College of Engineering, Kakatiya University**

**Dec 2021 – May 2025**

*Bachelor of Technology in Computer Science and Engineering*

*CGPA: 8.94*

## Relevant Coursework

- Java
- Data Structures
- Software Engineering
- Database Management

## Internships

**Inventive Bay Technologies**

**April 2024 – Aug 2025**

*Full Stack Developer Intern*

*Remote*

- Gained hands-on experience in Full Stack development using HTML, CSS, JavaScript, React.js, Next.js, Zod, Node.js, and MongoDB, while collaborating with the team.
- Contributed to a real-time project focused on building scalable and responsive web applications, ensuring timely progress through effective time management.
- Implemented Google authentication using NextAuth and integrated geolocation features to enhance user experience.
- Actively involved in team discussions, coordinating tasks debugging, performed unit testing, and delivering frontend and backend solutions to achieve project goals efficiently.

**Zen Technologies**

**May 2023 – June 2023**

*AI Tool Intern*

*Hyderabad, Telangana*

- Completed a 45-day internship focused on building applications using Microsoft Power Apps.
- Developed practical solutions such as chatbots and customized forms, tailored to meet specific organizational workflows.
- Designed a virtual website framework using Canva, contributing to visual communication and team productivity.

## Training

**Codegnan IT Solutions**

**April 2024 – Aug 2025**

*Java Full Stack Trainee*

*Hyderabad*

- Completed training in Core Java with focus on OOPs concepts, and problem-solving.
- Currently undergoing hands-on training in Advanced Java, JDBC, Spring, Spring Boot, Hibernate, REST APIs.

## Projects

**DigiMenu | JavaScript, React.js, MUI, Express, Nodejs MongoDB**

**April 2025**

- Developed a full-stack digital menu web application using React.js, Node.js, Express.js, and MongoDB to modernize traditional restaurant menus.
- Addressed common issues with printed menus by building a QR-code-based digital solution with mobile friendly UI.
- Implemented role-based authentication, enabling admins to manage categories, menu items, and real-time availability dynamically.
- Collaborated on backend integration, supporting secure payment features via Stripe.
- Designed a responsive user interface using Material-UI for seamless accessibility.

**Freelancing Platform for Chefs | JavaScript, React.js, MUI, Express, Nodejs MongoDB**

**October 2020**

- Developed a platform using **React.js** with backend support, collaborating with team members to allow chefs to showcase their services and connect with clients.
- Integrated backend functionality with a database to manage user profiles, chef listings, and booking processes, ensuring timely delivery through effective **time management**.
- Implemented features that allow chefs to register, create profiles, and list their culinary services for clients seeking specific skills and specialties.

## Technical Skills

**Languages:** JavaScript, Java

**Frontend Technologies:** HTML, CSS, JavaScript, React.js, Next.js, Material-UI (MUI)

**Backend Technologies:** Node.js, MongoDB

**Developer Tools:** VS Code, Eclipse, GitHub, Figma, Canva, Microsoft Power Apps, GitHub Copilot
